CONTENTS

Preface vii

I. Transport Mechanisms 1

Hydrophobization of ionic drugs for transport through membranes
S.J. Lee and S.W. Kim (Salt Lake City, UT, U.S.A.) 3
Macromolecular switches for bilayer membranes
D.A. Tirrell (Amherst, MA, U.S.A.) 15
Transport across epithelial membranes
E.R. Cooper (Forth Worth, TX, U.S.A.) and G. Kasting (Cincinnati, OH, U.S.A.) 23

II. Transdermal Drug Delivery Systems 37

Skin immunology: The Achilles heel to transdermal drug delivery
D.H. Lynch, L.K. Roberts and R.A. Daynes (Salt Lake City, UT, U.S.A.) 39
Skin development and permeability
T. Kurihara-Bergstrom and W.R. Good (Ardsley, NY, U.S.A.) 51
Physicochemical aspects of transdermal permeation
K. Knutson, S.L. Krill, W.J. Lambert and W.I. Higuchi (Salt Lake City, UT, U.S.A.) 59
The effects of ethanol on the transport of β-estradiol and other permeants in hairless mouse skin. II. A new quantitative approach
A.-H. Ghanem, H. Mahmoud, W.I. Higuchi, U.D. Rohr, S. Borsadia, P. Liu, J.L. Fox and W.R. Good (Salt Lake City, UT, U.S.A.) 75
Mode of action of penetration enhancers in human skin
B.W. Barry (West Yorkshire, Great Britain) 85
Control of drug concentration–time profiles *in vivo* by zero-order transdermal delivery systems
T. Okano, M. Miyajima, F. Komada, G. Imanidis, S. Nishiyama, S.W. Kim and W.I. Higuchi (Salt Lake City, UT, U.S.A.) 99
Development of a novel transdermal system design
C.D. Ebert (Redwood City, CA, U.S.A.) W. Heiber (Ardsley, NY, U.S.A.) R. Andriola and P. Williams (Suffern, NY, U.S.A.) 107

III. Gastrointestinal Delivery Systems 113

Carrier mediated transport of amino acids, small peptides, and their drug analogs
P.J. Sinko, M. Hu and G.L. Amidon (Ann Arbor, MI, U.S.A.) 115
Preliminary studies of oral muscosal delivery of peptide drugs
M.M. Veillard (Antony, France), M.A. Longer, T.W. Martens and J.R. Robinson (Madison, WI, U.S.A.) 123
Mechanistic studies in the simultaneous flow and adsorption of polymercoated latex particles on intestinal mucus I: Methods and physical model developments
C.L.C. Teng (Ann Arbor, MI, U.S.A.) and N.F.H. Ho (Kalamazoo, MI, U.S.A.) 133
Absorption enhancing agents for the GI system
J.A. Fix (Kansas, U.S.A.) 151

IV. Microencapsulation and Microspheres 157

Globular partially quaternized tertiary amine polymers and molecular microencapsulation of lipophilic drugs
M. Vert and J. Huguet (Mont-Saint-Aignan, France) 159
Prolonged delivery of peptides by microcapsules
H.V. Maulding (East Hanover, NJ, U.S.A.) 167

Hydrophilic polyacrylates for the microencapsulation of fibroblasts or pancreatic islets
M.V. Sefton, R.L. Broughton, M.E. Sugamori and C.L. Mallabone (Toronto, Ontario, Canada) 177
Activation of macrophage *in vitro* to acquire antitumor activity by a muramyl dipeptide derivative encapsulated in microspheres composed of lactide copolymer
Y. Tabata and Y. Ikada (Kyoto, Japan) 189

V. Bioerodible Polymers 205

Prediction of polymer dissolution in swellable controlled-release systems
P.I. Lee (Ardsley, NY, U.S.A.) and N.A. Peppas (West Lafayette, IN, U.S.A.) 207
Use of poly(ortho esters) for the controlled release of 5-fluorouracyl and a LHRH analogue
J. Heller, S.Y. Ng, D.W. Penhale, B.K. Fritzinger (Menlo Park, CA, U.S.A.), L.M. Sanders, R.A. Burns (Palo Alto, CA, U.S.A.), M.G. Gaynon (Stanford, CA, U.S.A.) and S.S. Bhosale (Pune, India) 217
Biodegradable hollow fibres for the controlled release of hormones
M.J.D. Eeninck and J. Feijen (Enschede, The Netherlands), J. Olijslager, J.H.M. Albers, J.C. Rieke and P.J. Greidanus (Delft, The Netherlands) 225
Biodegradable implant composites for local therapy
I. Kaetsu, M. Yoshida, M. Asano, H. Yamanaka, K. Imai, H. Yuasa, T. Mashimo, K. Suzuki, R. Katakai and M. Oya (Gunma, Japan) 249

VI. Stimuli Sensitive Polymers 265

Theoretical and experimental studies of glucose sensitive membranes
G.W. Albin, T.A. Horbett, S.R. Miller and N.L. Ricker (Seattle, WA, U.S.A.) 267
Electrochemically controlled release
L.L. Miller, G.A. Smith, A.-C. Chang and Q.-X. Zhou (Minneapolis, MN, U.S.A.) 293
Applications of thermally reversible polymers and hydrogels in therapeutics and diagnostics
A.W. Hoffman (Seattle, WA, U.S.A.) 297

VII. Controlled Release Systems 307

Amorphous water soluble derivatives of cyclodextrins: From test tube to patient
J. Pitha (Baltimore, MD, U.S.A.) 309
Targetable polymeric prodrugs
J. Kopeček (Prague, Czechoslovakia) and R. Duncan (Staffordshire, Great Britain) 315
Novel design of microreservoir-dispersed matrices for drug delivery formulations: Regulative drug release from poly(ethylene oxide)- and poly(tetramethylene oxide)-based segmented polyurethanes
N. Yui, K. Kataoka, A. Yamada and Y. Sakurai (Tokyo, Japan) 329
Antibiotic releasing polymers
D.D. Solomon (Dayton, OH, U.S.A.) and R.J. Sherertz (Gainesville, FL, U.S.A.) 343
Buccal/Gingival drug delivery systems
T. Nagai and R. Konishi (Tokyo, Japan) 353
Physiochemical determinants of nasal drug absorption
R.E. Gibson and L.S. Olanoff (Kalamazoo, MI, U.S.A.) 361
Design and evaluation of controlled release systems for the eye
R. Gurny, H. Ibrahim, A. Aebi, P. Buri (Geneva, Switzerland), C.G. Wilson, N. Washington (Nottingham, Great Britain), P. Edman and O. Chamber (Uppsala, Sweden) 367
Development of oxytetracycline long-acting injectable
A.J. Aguiar, W.A. Armstrong and S.J. Desai (Groton, CT, U.S.A.) 375
Long-acting methods for fertility regulation
H.L. Gabelnick (Arlington, VA, U.S.A.) and P.E. Hall (Geneva, Switzerland) 387

Author Index 395
